

504 FM Tuner

The Meridian 504 FM Tuner is the latest in a long line of Meridian tuners with a reputation for stunning sound quality.

The Meridian 504 FM Stereo Tuner combines major advances in audio and user interface design.

It features a dual-gate MOSFET input to pull in distant stations, while the matched ceramic filters ensure fine selectivity to cope with more-crowded locations.

A Walsh-function stereo decoder gives remarkable clarity and freedom from interference.

The 504 has full remote control, can store up to 30 stations in memory showing their names for your convenience.

The eight-character display can be programmed to show station names for ease of access.

The 504 FM Stereo Tuner is a wonderful way for pop enthusiasts to hear new music; jazz lovers to hear rare, archival material; and classical aficionados to hear well-made live broadcasts.

We invite you to consider it seriously.
